

MAKEUP LESSON WITH MAKEUP BY ANA B.

Makeup by Ana B offers a two (2) hour makeup lesson where one of our MAB senior makeup artists will show you how to do a full face from start to finish. The lesson covers the following:

- Prepping skin for makeup
- Perfecting skin with foundation and concealer
- Perfecting brows
- Proper use of makeup brushes and sponges
- Proper application of powder, bronzers/contour and blush
- Bringing out your eyes using eyeshadow, eyeliner and mascara
- Proper application of lipliner and lipstick
- False Lash application
- Product and technique recommendations based on your specific skin type and facial features

Our senior artist will demonstrate the techniques on one side of your face and will have you then repeat the techniques on the other side of your face while giving you feedback. You will then focus on a particular technique such as a smokey eye or a bold lip. You are encouraged to provide a picture of a particular makeup look that you want to achieve, but you and the artist will only do one complete look. In addition, you are also encouraged to provide your makeup bag and brushes so that they can give you feedback on the products you already own.
