

Product Guide for Beginners

Below is a full product list to use as a reference for your makeup lesson. ***These are just our recommended products.*** However, if you have something similar in a different brand, it can work just as well. There are different products recommended for particular skin tones.

DEFINITIONS

Skin tones: Refers to color of your skin and corresponding makeup. There are many variations to this but generally, we use: light, medium and deep.

Coverage: How heavy the makeup is and how much it covers. Sheer, medium or full are different levels of coverage.

Makeup Finishes:

Matte (no shine)
Natural (skin-like)
Satin (some shine/dewy)
Shimmer, frost (shiny)
Sheer (light)
